

Submittal Form

Z-Furring Channel

Product Benefits

Phillips Z-Furring Channels are used to furr out interior masonry, poured concrete and other applications. Phillips Z-Furring Channels feature many benefits:

- Supports insulation while providing a uniform plane for gypsum panel attachment
- Available in 25, 22 and 20 gauge
- Available in 1", 1-1/2" and 2"
- Available solid or with pre-punched holes

Certification

Phillips Z-Furring Channels meet or exceed ASTM C 645 Standard Specification for Nonstructural Steel Framing Members.

Storage

Avoid bending or other damage and store in a dry place protected from moisture.

Installation Recommendations

Phillips recommends installation in accordance with applicable ASTM standards and using prevalent industry standards. Reference materials include ASTM C 754, Gypsum Association GA-216, Gypsum Association GA-600 and Phillips Manufacturing's website (www.phillipsmfg.com).
