## 093 Zinc Expansion Control Joint

### **Product Benefits**

Phillips 093 Expansion Control Joint relieves stresses of expansion and contraction across ceiling and wall areas.

Phillips 093 Expansion Control Joint features many benefits:

- Manufactured from the highest quality solid zinc coil stock for superior corrosion resistance
- Excellent product for interior or exterior applications
- Opening is protected by plastic tape, which can be removed after joint compound or plaster have been applied
- Fits standard 1/4" openings
- Perforated flanges for excellent joint compound adhesion as the joint compound penetrates through the flanges to the drywall to enhance long-lasting adhesion
- Perforated flanges for faster drying

### **Certification**

Phillips 093 Expansion Control Joint meets or exceeds ASTM C 1047 Standard Specification for Accessories for Gypsum Wallboard

### **Storage**

Avoid bending or other damage and store in a dry place protected from moisture.

### **Installation Recommendations**

Phillips recommends installation in accordance with applicable ASTM standards and using prevalent industry standards. Reference materials include ASTM C 840, Gypsum Association GA-234, Gypsum Association GA-600 and Phillips Manufacturing's website ([www.phillipsmfg.com](http://www.phillipsmfg.com)).
