

7 Foundation Weep Scream

Product Benefits

Phillips #7 Foundation Weep Scream provides a stucco stop and screed at the sill plate line in exterior stucco applications. This product features many benefits:

- Punched weep holes enable keying as well as moisture weeping
- Perforated flanges aid attachment and plaster keying
- 3-1/2" nailing flange meeting applicable code requirements
- Nailing flange serves as a straight-edge stop at the sill plate line and flashing when water-resistant paper or paperbacked lath is installed over flange
- G90 Hot Dip Galvanized coating

Certification

Phillips #7 Foundation Weep Scream meets or exceeds ASTM C 1063 Standard Specification for Installation of Lathing and Furring to Receive Interior and Exterior Portland Cement-Based Plaster.

Storage

Avoid bending or other damage and store in a dry place protected from moisture.

Installation Recommendations

Phillips recommends installation in accordance with applicable ASTM standards and using prevalent industry standards. Reference materials include ASTM C 841, ASTM C 1063 and Phillips Manufacturing's website (www.phillipsmfg.com).

Drawing not to scale

Made in the U.S.A.

Phillips is proud that all our beads, trims and accessories, including Phillips #7 Foundation Weep Scream, are made in the United States of America.
