

5/8" #30 Double V Inside Corner Expansion Control Joint

#30 Double V Inside Corner Expansion Control Joint relieves the stresses of expansion and contraction associated with natural shrinkage during stucco curing and basic thermal changes. This product minimizes cracking in large plaster areas and provides ground to assure proper plaster or stucco thickness. It is formed to fit the inside of corners. Expanded flanges allow for quality keying. Available in both hot-dipped galvanized or zinc.

Product Data and Ordering Information

Material: galvanized steel or zinc
Dimensions: 1-3/4" leg
Part Number: 30ECJ6HDG

Screed	Length	Pieces per Carton	Cartons per Pallet	Feet per Carton
5/8"	10'	24	40	240

Drawing not to scale

All Phillips products are made in the U.S.A.
